World Liberty Financial is arguably the most prominent Trump-backed crypto venture, with Donald Trump and his three sons all listed as co-founders. So far, the project has only rolled out its USD1 stablecoin and sold its WLFI governance token; however, plans are in place to expand further into the world of decentralized finance and offer lending services.

There is a clear spectrum emerging. On one end, there are fully decentralized, censorship-resistant protocols. These chains may lack the polish or compliance comfort institutions crave, but they're the crucibles where real innovation happens. Ethereum in its early days, Bitcoin still today, newer privacy chains pushing the edges of what's possible without KYC gates.

The rise of NFTs (Non-Fungible Tokens) has brought revolutionary changes to digital content creation and trading. Based on blockchain technology, NFTs ensure the uniqueness and immutability of digital assets, solving the problem of digital content being easily copied. NFTs have a very wide range of application scenarios, including digital art, game items, virtual real estate, music works, etc. The rapid development of the NFT market has attracted the participation of many artists, collectors, and investors, and has also provided creators with new monetization channels. Although there are risks of speculation and bubbles in the NFT market, in the long run, NFTs will inject new vitality into the development of the digital economy.
