However, investors and companies are seeking to get ahead of the problem by urging the adoption of post-quantum cryptography standards before a sufficiently powerful quantum computer emerges.

The character, developed by comedian and technologist Eline Van der Velden—who spun off Xicoia from her production company Particle6—was

unveiled last week at the Zurich Summit during the Zurich Film Festival in Switzerland, and immediately drew online attention. Van der Velden said multiple talent agents are already interested in signing the artificial personality.
