Carrone added that while Paradigm's hiring of key Ethereum researchers and funding of open source libraries that are "critical to Ethereum" looks good on the surface, it's not for those who think that Ethereum should represent a "philosophical and political" movement that is "larger than any corporation."

The New York-based firm, which debuted GalaxyOne this month, is positioning itself as a competitor to retail-focused platforms like Robinhood and Coinbase, and it said that its platform reached a record \$17 billion in assets in the third quarter, up 70% quarter-over-quarter.

Google's newly released AI-powered search results are garnering lots of attention—for the wrong reasons. After the tech behemoth announced a host of new AI-powered tools last week as part of a new “Gemini Era,” its trademark web search results changed significantly, with natural language answers to questions displayed above websites. “In the past year, we've answered billions of queries as part of the search-generated experience,” Google CEO Sundar Pichai told the audience. “People are using it...
