Comprehensive Guide to binance okx exchange status operational

So far in 2025, paying for coffee with crypto isn't some sci-fi fantasy anymore. Plenty of chains and indie spots have already made it part of the daily grind. At Starbucks, for example, you can grab a Bitrefill gift card and cover your caramel macchiato with Ether or Bitcoin.

AT&T; lets you settle phone bills with ETH or BTC, dodging those pesky late fees. Many online and some physical retailers accept XRP via gateways like CoinGate.

Blockchains created and controlled by corporations will eventually die, as users won't want a chain controlled by a central entity, according to Eli Ben-Sasson, co-founder and CEO of blockchain company StarkWare.

The most significant breakthroughs in DeFi happened because anyone could plug into anyone else's contracts without asking permission. That's harder to do in a corporate-controlled L1 with guardrails. If you can offer true composability, you'll attract the builders they can't.

In 2017 and 2018, Kobayashi earned the nickname "Tokyo Whale" for selling Mt. Gox Bitcoin to fund fiat repayments. In mid-2024, wallet activity surged again as roughly 100,000 BTC was moved between Mt. Gox addresses for distribution, though not all represented actual sales.

US-based crypto exchanges like Coinbase and Kraken are also required to comply with the Bank Secrecy Act.
