"We need VCs for now because they represent a comfortable bridge for the world's capital to flow into our ecosystem," wrote Lubin, adding:

"We're testing SearchGPT, a prototype of new search features designed to combine the strength of our AI models with information from the web to give you fast and timely answers with clear and relevant sources," OpenAI said in an official blog post.

Notably, GPT-5 was down over the same period by about 29%. According to Nof1, the model adopted a distinctly cautious and risk-averse strategy. Unlike the

aggressive bullish bets of the winners or the erratic trading of the biggest losers, GPT-5 remained largely inactive, placing only a few small trades.

“This is a first step in bringing the spirit of Dogecoin directly into the fabric of the world’s game,” he added.

Kraken attributes the shift to the country being “more densely populated with professional traders than other regions” it operates in.

Mitchnick told Bloomberg that many early adopters now prefer the convenience of managing their holdings through established financial institutions while retaining exposure to Bitcoin’s price movements.
