With Grok 4, you can automate the first round of filtering — for example, summarizing white papers, spotting tokenomics red flags and checking liquidity. By the time you get to manual research, you are already down to the 10% of projects that actually deserve your attention.

Although \$1 trillion is a large number, the Standard Chartered analysts pointed out that it represents "just 2% of aggregate deposits in our 'high-vulnerability' countries."

Community split on future of corporate blockchains

Bitcoin, the first cryptocurrency, was designed to disrupt mainstream financial institutions and give financial power back to individuals.

However—and this is crucial—ADX measures strength, not sustainability. A strong reading can persist right until the moment a trend exhausts and reverses, some random whale dumps the coin, or a FUD episode triggers a flash crash. It's like a speedometer showing you're going fast without telling you how much fuel remains.

The vehicles, known as self-managed superannuation funds, are private pension accounts that allow Australians to manage their own retirement savings instead of entrusting them to large industry or retail funds.
