The world's top-ranked nightclub has opened what its owners say is the first permanent art gallery inside a club, as part of an effort to blend nightlife with digital art.

Part of this growth is being driven by improvements in underlying blockchain infrastructure, with some networks now processing over 3,400 transactions per second, a more than 100-fold increase in throughput over the past five years.

"This helps us understand friction points and opportunities, and keeps us close to the edge of what's possible," the announcement reads.

In May 2021, Tesla suspended Bitcoin payments for vehicle purchases, citing environmental concerns, which caused Bitcoin's price to drop by 6% within an hour, from \$54,800 to \$51,600.

Three times leveraged funds are far rarer, with many observers of the space doubting that issuers would try to introduce more of these products, which can become a bad bet if the underlying asset veers in an unexpected direction. The prospectus itself warns repeatedly that the various funds proposed may not be right for all investors.
