De-risking phase takes over market

Double tops form an “M” shape near resistance, signaling a potential bearish reversal. Double bottoms form a “W” shape near support, signaling a potential bullish reversal.

Grayscale's introduction of staking-enabled funds marks a key milestone shaped by evolving oversight and growing market competition. The US Securities and Exchange Commission issued guidance for crypto ETPs in May 2025, clarifying that certain custodial staking activities may operate within existing securities laws when managed through regulated custodians and transparent structures. This development has eased earlier barriers that prevented ETFs from earning onchain rewards.

In 2024, officials sought to address the country's debt by raising money through taxes, including a 16% sales tax on bread and 25% tax on vegetable oil. As protests broke out, some groups urged citizens to begin using crypto as a way to bypass what they saw as unfair taxation.
