protection guidelines.

The exchange has now called for establishing regulatory safe harbors under the Bank Secrecy Act for firms responsibly deploying AI to improve compliance programs, with conditions focusing on governance and outcomes rather than forcing a one-size-fits-all model.

The approval allows Binance to take majority control of GOPAX, restart operations in Korea, honor repayment pledges to users, and position itself to compete with dominant local exchanges.

Ether's bear flag breakdown targets \$3,100

Ethereum co-founder and Consensus founder Joseph Lubin highlighted the importance of venture capital (VC) funding for the development of the world's largest smart contract network, despite industry concerns over the influence of investment funds on Ethereum.
