The Bitcoin-buying firm's latest acquisition was funded with proceeds from preferred shares, leaving the Tysons Corner, Virginia-based firm with a stockpile of roughly 640,400 Bitcoin, which was recently worth \$71 billion, based on current prices, according to CoinGecko.

In May, figures for global adoption were published by crypto exchange Gemini, showing that most meme coin owners also hold Bitcoin and Ethereum.

“The shift is driven by the convenience and significant tax benefits offered by ETFs, as well as the ability for major investors to manage their wealth through existing financial advisers and access broader investment/lending services,”

Hiesboeck said.

The meme coin group has been gloating online about the attention their marketing gimmicks have been receiving, encouraging each other to share and repost any mention of their stunts in the hopes of getting more people to buy their token.

Notably, SearchGPT appears to replace Microsoft Bing with its own technology. The videos shared by OpenAI don't show the typical banner indicating that search results are powered by Bing, as with the current version of ChatGPT. And while Google has been integrating AI into its services, SearchGPT's advanced capabilities clearly pose a significant threat.

Nailwal isn't the only industry leader who has handed out heavy criticism to the EF, which has undergone a major leadership overhaul over the last 12 months.
