"These protections have already proven to be successful in addressing other types of non-consensual imagery, and we've now built the same capabilities for fake explicit images as well," Google said. "These efforts are designed to give people added peace of mind, especially if they're concerned about similar content about them popping up in the future."

"SearchGPT is about search and is separate from training OpenAI's generative AI foundation models," OpenAI said. "Sites can be surfaced in search results even if they opt out of generative AI training."

The character, developed by comedian and technologist Eline Van der Velden—who spun off Xicoia from her production company Particle6—was unveiled last week at the Zurich Summit during the Zurich Film Festival in Switzerland, and immediately drew online attention. Van der Velden said multiple talent agents are already interested in signing the artificial personality.

The pair's Solana token pumped over 2,000%, and they later thanked the gym bro for slapping them.

Indeed, a simple, repeatable rule can act both as a policy signal and as an operational habit for long-term accumulation.

The company has since closed its Minnesota headquarters, suspended most of its global services, and begun winding down its operations.
