For anyone building a position from regular income, such as salary, freelance payments or side hustles, DCA fits neatly into everyday finances. It also keeps decision-making calm and repeatable.

BTC's current price action closely resembles the March–April bottom range, when sharp intra-day wicks cleared out liquidity built over 30 days before a gradual recovery began. The pattern suggested that BTC could retest the \$100,000 range without necessarily breaking the broader bullish structure, unless it falls decisively below that level.

American entrepreneur Elon Musk triggered a short-term rally in the memecoin market after posting a playful message on his social media platform X.

After the 2014 Mt. Gox hack, the first hack explored in “Code is Law,” the DAO hack is probably the most famous in crypto’s history. The DAO was the first decentralized autonomous organization, becoming an eponym in the process. In 2016, when Ethereum was still young, it was one of the first decentralized applications to gain traction.
