When the usage moves beyond consumer transactions into payments infrastructure, institutional use, remittances and treasury operations, different strengths of BTC, ETH and XRP become more visible.

Part of this growth is being driven by improvements in underlying blockchain infrastructure, with some networks now processing over 3,400 transactions per second, a more than 100-fold increase in throughput over the past five years.

One such campaign is Algoland, a 13-week onchain questing campaign launched by the layer-1 blockchain Algorand to showcase its ecosystem and technical capabilities. The campaign, which began on Sept. 22, has concluded its third week, and the onchain data from its initial phase is now available.
