The letters, known as “nudge letters,” are designed to prompt investors to voluntarily correct their tax filings before formal investigations are launched.

Blockchain technology is rapidly developing worldwide, becoming an important driving force for digital transformation. As a distributed ledger technology, blockchain ensures data security and immutability through decentralized means. In the financial sector, blockchain technology has begun to transform traditional payment, clearing, and settlement processes, improving efficiency and reducing costs. At the same time, blockchain has shown tremendous application potential in

various fields such as supply chain management, healthcare, and public services. With the continuous maturity of technology, we have reason to believe that blockchain will lay a solid foundation for the future digital economy.

Together, they account for about a quarter of the country's \$4.3 trillion (US\$2.8 trillion) superannuation pool, according to data released by the Australian Prudential Regulation Authority last week.

Steak 'n Shake joined the party in May 2025, rolling out BTC payments nationwide, crediting it for an 11% sales boost by attracting tech-savvy diners. Chipotle and Baskin-Robbins are on board, too, via BitPay integrations, where ETH, BTC or XRP funds your burrito bowl or scoop.

But there's other big market players to consider, like Bitcoin treasury companies, according to Rick Maeda, a research analyst at Presto Research. He's especially interested in ones like Japan's Metaplanet, which has sworn off ever selling its BTC stash.

The spot volume delta metric, an indicator that measures the net difference between buying and selling trade volumes, reveals that net spot buying on exchanges remains negative, despite the recent attempts at recovery.
