Comprehensive Guide to binance smart chain wallet download

DAT bubble bursting?

The data analytics platform also showed that in the last 30 days, BNB Chain's successful transactions reached 500 million, a 151% surge from the previous 30-day period. This puts the network second to Solana, which holds the top spot for transactions.

CalPERS holds 410,596 Strategy shares valued at \$165.9 million according to its Q2 13F filing, giving the pension system substantial indirect Bitcoin exposure through the company.

However, he predicts that in a few years the blockchains built by these companies will most likely be abandoned when they “cause too big a headache from a technical point of view,” and after users choose to avoid them because they aren’t attractive enough from a “DeFi/self-custody/control-my-asset point of view.”

Grok 4 and DeepSeek were the two best-performing generative AI chatbots in a crypto trading competition launched by developers that received viral attention.

If you want to move from ad hoc trades to a repeatable system, you need to build structure into how you use Grok 4. Start with historical-news reaction backtests: Use Grok 4 to pull past X-sentiment spikes for the token and match them with price reaction windows (one hour, six hours, 24 hours). Export the pairs and run a backtest that simulates slippage and execution costs; if average slippage exceeds the expected edge, discard that signal type.
