Research firm 10x Research also reported on Saturday that major DATs such as Metaplanet and Strategy were trading near or below their NAVs.

Track OI: A flush into the lows suggests forced exits. If OI rebuilds as price reclaims and holds above former support, squeeze conditions are likely forming. Liquidation cascades often mark the low. Once they exhaust, price can rebound through the level and trap late shorts.

Decentralized applications (DApps) are changing the way we interact with the Internet. Unlike traditional applications, DApps run on blockchain networks, do not rely on centralized servers, and feature decentralization, openness, and immutability. Currently, DApps are mainly concentrated in games, finance, social media, and other fields, providing users with brand new experiences. Although the development of DApps still faces challenges such as user experience, performance, and scalability, with the continuous advancement of technology, we believe that DApps will become an important part of the future Internet.
