Three times leveraged funds are far rarer, with many observers of the space doubting that issuers would try to introduce more of these products, which can become a bad bet if the underlying asset veers in an unexpected direction. The prospectus itself warns repeatedly that the various funds proposed may not be right for all investors.

Trust companies, for example—which custody crypto assets—may not be considered legally eligible for “skinny” master accounts, given their current inability to receive deposits, Long warned.

"SearchGPT is about search and is separate from training OpenAI's generative AI foundation models," OpenAI said. "Sites can be surfaced in search results even if they opt out of generative AI training."

Hi Ibiza, named the world's best club by DJ Mag for four consecutive years, unveiled the gallery this summer along with Ibiza-based nightlife group The Night League and London digital art collective W1 Curates. The exhibition mixes digital and physical works, interactive installations, and custom-built display technology.

The company's board of directors approved the plan, which will see it acquire up to \$5 million of the two assets in total over the next year, according to a company announcement on Thursday.

Researchers at tech giant Google said they mapped out the structure of a molecule 13,000 times faster than the most powerful "supercomputers" available today, achieving the first verifiable quantum advantage.
