“Our investment in U.S. Triestina 1918 is about much more than football. It’s about connecting Dogecoin’s global community with one of Europe’s most storied clubs and proving that digital assets can drive real-world value, culture, and passion,” said House of Doge CEO Marco Margiotta in a statement.

How to use it: If funding is highly positive and OI is rising into resistance, treat upside breaks with skepticism. This usually signals bull-trap risk. If funding is deeply negative and OI has just flushed below support, be cautious when shorting breakdowns. This often indicates bear-trap risk. Pair these reads with a higher-timeframe retest-and-hold and volume confirmation before increasing

position size.

The most significant breakthroughs in DeFi happened because anyone could plug into anyone else's contracts without asking permission. That's harder to do in a corporate-controlled L1 with guardrails. If you can offer true composability, you'll attract the builders they can't.

The US dollar's hegemony is over, as evidenced by China's recent announcement of export controls on rare earth minerals, a critical component in electronics manufacturing and military defense applications, according to analyst Luke Gromen.
