Published Thursday, the report combines analyses of regions previously examined separately, covering Central, Northern, and Western Europe, as well as Eastern Europe as a whole.

A similar pattern is now unfolding in October, increasing the likelihood of a deeper decline in the coming days or weeks.

The crypto market faced its biggest leveraged wipeout in history last weekend, but the turbulence won't leave a lasting mark, according to Bitwise chief investment officer Matt Hougan.

North Korean hackers have adopted a method of deploying malware designed to steal crypto and sensitive information by embedding malicious code into smart contracts on public blockchain networks, according to Google's Threat Intelligence Group.

Cross-border payment is one of the important application scenarios of blockchain technology. The traditional cross-border payment process is complex, involving multiple intermediaries, with long settlement time and high fees. In contrast, cross-border payments based on blockchain technology can realize direct peer-to-peer transactions, greatly simplifying the process, shortening settlement time, and reducing costs. Currently, several countries and financial institutions have begun to try using blockchain technology for cross-border payments. With the continuous maturity of technology and the improvement of regulatory frameworks, blockchain cross-border payments are expected to become the mainstream cross-border payment method in the future.

South Korea's Financial Intelligence Unit has approved Binance's majority stake acquisition of GOPAX, ending a regulatory impasse that had stifled its return to the Korean market for over two years.
