The operations processing transactions—known as miners—race to solve puzzles and are rewarded for doing so. In order to take part, they must use huge amounts of computing power.

However, market conditions remain choppy with digital asset investment products seeing \$513 million in outflows last week following a Binance liquidity cascade on October 10 that triggered nearly \$20 billion in liquidations, including roughly \$16.7 billion in long positions, according to a CoinShares report.

“This is a first step in bringing the spirit of Dogecoin directly into the fabric of the world’s game,” he added.
