Half of those polled said that BTC will maintain between \$100,000 and \$150,000 over the same time period. Half the users—who were polled between the end of July and August 10—told the exchange they intend to increase their Bitcoin holdings.

“Gold is giving us a lesson in statistics,” he said, adding that the asset has faced even bigger drawdowns since 1971, with such corrections counting 21 times.

Memecoin sector weathers recent market crashes

For beginners, the market can feel overwhelming, but once you learn how to read crypto charts, the chaos starts to make sense.

While Elon Musk has recently touted Bitcoin for its energy-based, inflation-proof economic model, the billionaire's relationship with the cryptocurrency industry has been complicated.

Grayscale's staking-enabled ETPs have had a significant impact on Wall Street and the broader crypto ecosystem. It connects blockchain-based yield with regulated financial products, turning crypto ETPs from simple price trackers into income-generating assets. The initiative marks a key advance in institutional adoption. Regulated staking on Ethereum and Solana could draw substantial new capital to these networks while acting as a model for products linked to other PoS blockchains or tokenized assets.
