The relative strength index is still below the 50 mark, suggesting that market conditions still favor the downside.

Commenting on the price action, CEA Industries CEO David Namdar told Cointelegraph that BNB was the “most overlooked blue-chip in the market,” and that the rally reflected the market catching up to the token’s fundamentals.

The NAV normalization has created a rare entry point for smart investors. Companies now trading at or below NAV offer pure Bitcoin exposure with optionality on future alpha generation and upside from any trading profits.

In early July, Mt. Gox wallets began moving Bitcoin as the exchange prepared for creditor repayments under the civil rehabilitation plan. Markets initially feared that recipients would immediately sell. Bitcoin dipped again after Kraken, one of the exchanges handling distributions, announced on July 24 that it had completed its process.

The phrase “code is law” is generally attributed to the academic Lawrence Lessig. The first chapter in his 1999 book “Code: And Other Laws of Cyberspace” is titled “Code is Law” and draws an analogy between the power vacuums percolating in Eastern Europe at the time (someone should check in on that) and the internet.

The iShares Bitcoin ETP began trading on the London Stock Exchange on Monday, with securities physically backed by Bitcoin held through Coinbase, as per the Financial Times report.
