Bitcoin's rise also comes as gold and U.S. stocks jump on hopes that the Federal Reserve will cut interest rates again this month. The central bank has been under pressure from President Donald Trump to lower the cost of borrowing this year.

Community split on future of corporate blockchains

Recently, though, Bitcoin ETFs have been rebounding after lagging compared to Etheruem ETFs. BTC funds have just recorded two consecutive days of inflows exceeding \$300 million, totaling \$633.3 million across both sessions—the strongest two-day performance since early August.

That state of affairs could now change imminently. Waller's plan would allow U.S. institutions focused on "payments innovation"—aka, crypto and other emerging financial technologies—to gain their own access to the Fed's services, as opposed to depending on third-party, master account-holding banks.

Ripple continues to ink partnerships with traditional financial companies and digital asset projects alike, committing to several deals in September and October.

The technique, called "EtherHiding," emerged in 2023 and is typically used in conjunction with social engineering techniques, such as reaching out to victims with fake employment offers and high-profile interviews, directing users to malicious websites or links, according to Google.
