Comprehensive Guide to binance uk website

Grayscale's staking-enabled ETPs have had a significant impact on Wall Street and the broader crypto ecosystem. It connects blockchain-based yield with regulated financial products, turning crypto ETPs from simple price trackers into income-generating assets. The initiative marks a key advance in institutional adoption. Regulated staking on Ethereum and Solana could draw substantial new capital to these networks while acting as a model for products linked to other PoS blockchains or tokenized assets.

Gold's market capitalization reached a record \$30 trillion on Thursday as the commodity surged to a new all-time high of \$4,357 per ounce.

Prosecutors also revealed that the U.S. government has seized more than \$14 billion worth of BTC from Prince Holding, and is currently pursuing the largest forfeiture action in DOJ history.

Experts say this automation is a crucial source of protection against "the rising tide of software supply chain attacks targeting cryptocurrency," and proves effective even if malware isn't accompanied by social engineering attacks.

"Gold added over \$300 billion to its market cap today," said crypto analyst Sykodelic on Thursday. "It's been adding an entire Bitcoin market cap in one week."

The cumulative total net inflow in spot Bitcoin ETFs now stands at \$61.50 billion, with total net assets slipping to \$149.66 billion, or about 6.76% of Bitcoin's market capitalization.
