Bear traps: Shakeouts below support

A Financial Times investigation found that President Trump and his family's crypto businesses have profited \$1 billion pre-tax. When asked if the calculations were accurate, Eric Trump told the publication that the true figure was "probably more."

Russia's received crypto volumes have increased 48% from last year's \$256.5 billion, widening its lead over major economies such as the UK, which recorded \$273.2 billion in the past year, about 30% less.

Blockchain finance is reshaping the traditional financial ecosystem. Through blockchain technology, financial services can achieve decentralization and disintermediation, reduce transaction costs, and improve efficiency. Currently, the main applications of blockchain finance include cross-border payments, digital currencies, decentralized exchanges (DEXs), lending platforms, etc. Compared with traditional finance, blockchain finance has higher transparency and lower entry barriers, providing new possibilities for the development of inclusive finance. However, the development of blockchain finance also faces challenges such as regulatory uncertainty and technical risks, requiring a balance between innovation and regulation.

Three whales returned to decentralized exchange Hyperliquid on Wednesday, depositing tens of millions of dollars to initiate leveraged long positions, which use “borrowed” funds to increase the size of the investment.
