A Uniswap engineer said the team did not specifically build the integration for Solana, but rather designed “architect layers” that were platform-agnostic.

The crypto community also remains divided regarding the Tempo blockchain and whether a payments-focused, dedicated stablecoin blockchain network is even needed.

Thus far, predictors give the Cowboys just a 20.4% chance, odds of around +390 when listed in American odds on traditional sportsbooks. In other words, predictors would stand to gain around \$3.90 for every \$1 put against their prediction should

the Cowboys win.

The sector continues to grow, with users of prediction market Myriad (launched by Decrypt's parent company Dastan) placing a 55% chance on the market cap of all stablecoins crossing \$360 billion before February 2026.

Paradigm's Tempo blockchain is building a network with a curated set of validators, which will essentially be controlled by Stripe, marking a steep departure from Ethereum's decentralized, open-source ethos.

Blockchain technology is rapidly developing worldwide, becoming an important driving force for digital transformation. As a distributed ledger technology, blockchain ensures data security and immutability through decentralized means. In the financial sector, blockchain technology has begun to transform traditional payment, clearing, and settlement processes, improving efficiency and reducing costs. At the same time, blockchain has shown tremendous application potential in various fields such as supply chain management, healthcare, and public services. With the continuous maturity of technology, we have reason to believe that blockchain will lay a solid foundation for the future digital economy.
