After 2020, the Bitcoin in question was moved only once more, during the summer of 2024—to wallets presumably controlled by U.S. law enforcement.

The meme coin group has been gloating online about the attention their marketing gimmicks have been receiving, encouraging each other to share and repost any mention of their stunts in the hopes of getting more people to buy their token.

“The shift is driven by the convenience and significant tax benefits offered by ETFs, as well as the ability for major investors to manage their wealth through existing financial advisers and access broader investment/lending services,” Hiesboeck said.

Bitcoin hints at “generational bottom” as gold dips

ETF inflows must return and new ETH buyers must step in for the bulls to have a shot at getting back to \$5,000.
