Look for thin order books and small liquidity pools. Ask Grok 4 to search for reported liquidity pools and automated market maker (AMM) sizes, then verify with onchain queries.

Admit it or not, software is deployed by developers and used by communities for certain purposes. And when hackers at cross purposes exploit the software to take things from those communities, some of the victims will appeal to the government for help. And sometimes those governments will respond by sending men with guns to restrain the hackers and imprison them.

The comedian is far from striking a deal with the likes of HBO, but it might not be too long before Haines offers a closer look at what's coming. He plans on turning behind-the-scenes content into a vlog.

A bear trap occurs when the price breaks below a widely watched support level, draws traders into shorts, then reverses sharply higher, forcing covers and squeezing positions.
