House of Doge telegraphed its deeper move into sports, telling Decrypt last week that it intends to tokenize multiple elements of mainstream culture, starting with sports.

“Dollar dominance by the end of that period went from 27% in GDP terms but to 57% of central bank reserves, and 80% of financial transactions, quotes,” he said, adding:

Coinbase’s Duong said the crypto bull market “has room to run,” but is more cautious after the events of Oct. 10.

"Given weakness on several metrics, we see a relatively high risk that deposits in Egypt, Pakistan, Bangladesh, and Sri Lanka will flow into stablecoins as local depositors seek an external store of value," Kendrick and Jha wrote. "Other countries in this group include Turkey, India, China, Brazil, South Africa and Kenya. Many of them (with the key exception of China) face twin deficits, which may indicate vulnerability."

A key decision leader at the Federal Reserve has proposed a new path to registration with the central bank Tuesday—one that could, for the first time, unlock coveted privileges for crypto-focused financial institutions.

House of Doge was founded earlier this year to help grow mainstream awareness and adoption of the world's biggest meme coin. Since that time, the firm has collaborated with publicly traded CleanCore on a DOGE treasury chaired by Alex Spiro, the personal lawyer of DOGE-friendly billionaire entrepreneur, Elon Musk.
