Open banking, which allows consumers to share financial data with third-party apps through APIs, serves as a key link between traditional finance and sectors like decentralized finance (DeFi), crypto payment networks and digital banking platforms.

“Crypto is now an alternative currency that has its supply limited, so, all things being equal, if the supply of dollar money rises and/or the demand for it falls, that would likely make crypto an attractive alternative currency,” he said.

That was the revelation that Tempo has successfully poached Dankrad Feist, a key contributor to the Ethereum network, to build out Stripe's new chain.

That includes analyst Pat, who predicted a "generational bottom" for Bitcoin, citing its performance relative to gold over the past four years.

How to read: A rising wedge in an uptrend often signals a potential reversal as momentum weakens, while a falling wedge in a downtrend points to a possible bullish reversal. These patterns can also act as continuation signals when aligned with the prevailing trend. Measure the wedge's height and project it from the breakout point to estimate the target move.

However, the next bear market will be defined by the business cycle, explained Woo. The last business cycle downturns that really took hold were 2008 and 2001, before crypto markets were invented, he said.
