However, the catastrophic losses of models like Gemini highlight the significant risks that make financial institutions wary. A primary concern is the "black box" nature of these systems, where the reasoning behind a trade is often opaque and unexplainable. This lack of transparency is a major hurdle for regulatory compliance and risk management, as establishing trust in a model's decisions is a critical and ongoing effort.

In 2025, crypto remains a mix of opportunity and challenge. Prices continue to fluctuate as fresh regulations, new tech and AI trends influence how the market moves.

Meanwhile, Turkish regulators have responded to growing adoption of crypto by expanding their watchdog powers. And the rising adoption of stablecoins in Asia has been at the center of a political stalemate in India.

This technological progress has fueled the continued adoption of stablecoins, fiat-pegged digital tokens that can move across the internet without relying on traditional payment rails. The report cited \$9 trillion in stablecoin transactions over the past 12 months — an 87% increase from the previous year.

This happened as the “fear” sentiment gripped markets, with nearly \$230 billion in value erased in a single day.

Neither World Liberty nor Justin Sun immediately responded to a request for comment from Decrypt.
