“This is the biggest single threat to Bitcoin since its inception from the ashes of the global financial crisis,” David Carvalho, founder and chief scientist at the Naoris decentralized cybersecurity protocol, said.

Did you know? Etherscan’s Gas Tracker gained popularity during the DeFi boom. By displaying real-time transaction fees, it helped users plan their swaps and NFT mints more strategically to avoid overpaying.

Bitcoin, the first cryptocurrency, was designed to disrupt mainstream financial institutions and give financial power back to individuals.

Google's newly released AI-powered search results are garnering lots of attention—for the wrong reasons. After the tech behemoth announced a host of new AI-powered tools last week as part of a new “Gemini Era,” its trademark web search results changed significantly, with natural language answers to questions displayed above websites. “In the past year, we’ve answered billions of queries as part of the search-generated experience,” Google CEO Sundar Pichai told the audience. “People are using it...

The flipping has been an ongoing debate for years

Treasury initially published the request in the Federal Register in August.
