"The elephant in the room is are DATs really justified?" Chu questioned, noting "without a credible business case, rigorous governance, robust custody, and transparent risk controls, such DAT structures can become misaligned with shareholder interests and could invite the kind of liquidity and governance risks regulators worry about."

How to read: These patterns show two failed attempts to break resistance (top) or support (bottom). Confirmation occurs when the price crosses the neckline: bearish for double tops and bullish for double bottoms. Measure the height from the neckline to the peaks or troughs, then project it from the breakout point to estimate the move.
