New York lawmakers launched a legislative strike against crypto mining Friday, introducing companion legislation to a Senate bill that would force proof-of-work miners to pay high taxes based on their electricity consumption.

Woo's point is that crypto markets don't exist in isolation and are affected by these broader economic cycles, particularly through their impact on liquidity.

With Grok 4, you can automate the first round of filtering — for example, summarizing white papers, spotting tokenomics red flags and checking liquidity. By the time you get to manual research, you are already down to the 10% of projects

that actually deserve your attention.

Bitcoin, Ethereum, BNB, and Solana have surged by double-digits over the past week, per data from CoinGecko. Aptos has been a standout, climbing 25.3% over the period to trade at \$5.32.

Stadelmann dismissed the idea that open banking offers genuine openness, calling it “a facade all along,” and argued that it’s “clever marketing,” with open banks “no different from big banks at the end of the day” and just as likely to weaponize their systems as seen during Operation Choke Point.

Under current law, financial institutions must file CTRs for cash transactions exceeding \$10,000 and SARs for transactions involving \$2,000 to \$5,000, depending on the level of suspicion or evidence of criminal activity.
