Half of those polled said that BTC will maintain between \$100,000 and \$150,000 over the same time period. Half the users—who were polled between the end of July and August 10—told the exchange they intend to increase their Bitcoin holdings.

Particle6 did not immediately respond to a request for comment by Decrypt.

Traditional corporate rules should still govern digital-asset treasuries," Chu said, warning that loosening them risks a repeat of the dot-com era's "speculative frenzy without revenue backing.

The stated objective for the models is to maximize their risk-adjusted returns. The rules emphasize autonomy, requiring each AI to independently generate its trading ideas, size and time its trades, and manage its own risk, with all model outputs and corresponding trades made public for transparency.
