Both Bitcoin and gold have seen significant price gains since the U.S. government shutdown began earlier this week.

Android users beware: A newly discovered piece of malware is targeting smartphone crypto wallets. Uncovered by fraud prevention firm ThreatFabric, the “Crocodilus” mobile banking trojan employs tools including remote control, black screen overlays, and advanced data harvesting through accessibility logging to trick crypto holders into handing over their wallet seed phrase. The malware “is masquerading as crypto-related apps and involves specific social engineering techniques to make victims reve...
