However—and this is crucial—ADX measures strength, not sustainability. A strong reading can persist right until the moment a trend exhausts and reverses, some random whale dumps the coin, or a FUD episode triggers a flash crash. It's like a speedometer showing you're going fast without telling you how much fuel remains.

As “creator capital markets” advocates hailed the stunt as a raging success, others pushed back. One X commenter said, “This could easily be a bad thing. We don't need more harassment, we need more quality content.”

New York lawmakers launched a legislative strike against crypto mining Friday, introducing companion legislation to a Senate bill that would force proof-of-work miners to pay high taxes based on their electricity consumption.

“‘Tilly Norwood’ is not an actor, it’s a character generated by a computer program that was trained on the work of countless professional performers—without permission or compensation,” SAG-AFTRA said.

He believes this outlook bodes well for a sustained rally through the year’s end, noting that “historically, October through December are the most active and bullish months for Bitcoin.”

In a major show of force for Stripe’s upstart blockchain project Tempo, the company has reportedly raised \$500 million—and nabbed one of the Ethereum network’s most prominent core developers, as well.
