Also, the candlesticks have started to show signs of extreme FOMO. A parabolic chart is already hyperbullish, but a parabolic chart in which the bodies of the latest candlesticks are moving faster than the support, is probably too good to be true. Common sense says there must be a correction for markets to find some balance.

Bitcoin, other than being a digital coin, is a payment network with operations processing transactions scattered worldwide.

Jonathan Morgan, the lead crypto analyst at trading app Stocktwits, added that this is likely the result of “mechanical selling” from traders who simply buy and sell

based on the expectation of a four-year cycle.

Chinese artificial intelligence models are outperforming their United States counterparts in cryptocurrency trading, according to data from blockchain analytics platform CoinGlass, as competition between leading generative AI chatbots intensifies.

Unlike a company's stock market cap, which is based on outstanding shares, the market cap of gold is a calculation of the total value of all the gold that has ever been mined; however, it is impossible to know the exact amount.

"Traditional sportsbooks focus on entertainment-driven, event-specific wagering with defined odds and consumer protections; meanwhile, prediction markets operate as decentralized forecasting tools where liquidity and information efficiency determine prices," he added. "If effectively regulated, both models could ultimately complement each other."
