“What that means is that when you remove a result from search under our policies, in addition, what we'll do is on any query that includes your name—or would be likely to surface that page from search—all explicit results will be filtered,” the spokesperson said. “So not all explicit results will be removed, but all explicit results will be filtered on those searches, which prevents them from appearing on searches where it would be likely to show up.”

Even with co-signing meant to curb censorship, the model still assumes enough liquidators (and sometimes large lenders) behave correctly. Even if they cannot steal Bitcoin thanks to the system's design, this introduces a trust assumption into

the system.

The referral system also proved to be a growth driver, with 25,212 new users brought into the Algorand ecosystem through invitations from friends. By the end of the week, 4,215 participants had successfully completed all the required quests and claimed their non-fungible token (NFT) badges.

Fundstrat's Tom Lee has echoed the sentiment that digital asset treasury hype may be coming to an end, but remains bullish on Ether, having purchased \$1.5 billion worth since the market crash.

Crypto companies must be registered with the FCA under money laundering regulations and comply with the UK's financial promotions rules, which took effect in 2023, to advertise or provide services to residents.

The bill increases the Currency Transaction Report (CTR) threshold to \$30,000 from \$10,000 and the Suspicious Activity Report (SAR) thresholds from \$2,000 to \$3,000 and \$5,000 to \$10,000, while requiring the Treasury Department to adjust these amounts every five years to account for inflation.
