June, Hut 8 received a \$150 million investment from tech-focused investment manager Coatue Management, to help the company “capitalize” on the growing demand for AI computing power.

For traders and builders alike, the real alpha will come from understanding how value migrates between these worlds. The Stripe Tempo news signals that the base layer is now strategic real estate. And in markets, whoever controls the rails eventually controls the margins.

Research firm 10x Research also reported on Saturday that major DATs such as Metaplanet and Strategy were trading near or below their NAVs.

By contrast, Grok's strong performance implies that a powerful, general-purpose AI may be capable of successfully navigating markets on its own—a potentially disruptive development for the entire industry.

Beyond these giants, e-commerce platforms like Shopify have democratized the use of digital currency by making it simple for millions of small and medium-sized businesses to include a cryptocurrency checkout option.

The first, as is highlighted in Craig's film, is that it is incredibly difficult to build code that is robust enough to regulate human behavior in the range of circumstances it is likely to encounter. This issue comes from a mismatch between the rigid logical nature of code and the fluidity of human behavior.
