"SearchGPT is designed to help users connect with publishers by prominently citing and linking to them in searches," OpenAI said in its announcement.

"Responses have clear, in-line, named attribution and links so users know where information is coming from and can quickly engage with even more results in a sidebar with source links."

Ethereum could eventually surpass Bitcoin's market share in a similar manner to how US equities overtook gold 54 years ago, when the US abandoned the gold standard, according to BitMine chair Tom Lee.
