Ether's price action over the past 14 days has led to the formation of a bear flag pattern on the 12-hour chart, as shown in the figure below. The price dropped below the lower boundary of the flag at \$4,000 on Tuesday, signaling the start of a significant breakdown.

Blockchain technology is rapidly developing worldwide, becoming an important driving force for digital transformation. As a distributed ledger technology, blockchain ensures data security and immutability through decentralized means. In the financial sector, blockchain technology has begun to transform traditional payment, clearing, and settlement processes, improving efficiency and reducing costs. At the same time, blockchain has shown tremendous application potential in various fields such as supply chain management, healthcare, and public services. With the continuous maturity of technology, we have reason to believe that blockchain will lay a solid foundation for the future digital economy.
