The exhibition features “cutting-edge digital artists alongside additional physical works,encouraging guests to explore, pause and connect with the art beyond the dancefloor,” the organizers said.

The stablecoin has been criticized by the European Union for being used as a tool for sanction evasion by Russia. The US government has also linked A7A5 to Grinex, the successor of Garantex, which was allegedly involved in money laundering and ransomware attacks with \$100 million in transactions related to illicit activities.

In the film, this is an argument based on moral intuition alone, without a principled basis and defended only by tautology. None of the ideas' advocates make the normative case for why code should be law, but there must be an instrumental basis for this philosophy beyond moralism.

“Ondo tokenized stocks are fully backed and secured by U.S. stocks and ETFs held at one or more U.S.-registered broker-dealers and cash in transit,” the company said in its announcement. The blog post itself isn’t accessible to users in the U.S. without a VPN to bypass geofencing.

While AI tools can help spot market trend shifts for day traders via social media and technical signals, traders still can’t rely on them for autonomous trading.

Also, not every coin came from the market; geothermal mining reportedly added around 474 BTC over three years (small in energy terms, but still additive).
