In fact, even with such a sharp correction, the overall trend could still be considered long-term bullish, with prices still trading above the 50-day EMA.

By using trusted custodians, a diversified network of validator partners and transparent reporting, Grayscale has established a secure and compliant way for investors to participate in staking. It has turned staking from a complex, retail-oriented process into a professional investment opportunity.

However, investors and companies are seeking to get ahead of the problem by urging the adoption of post-quantum cryptography standards before a sufficiently

powerful quantum computer emerges.

However, the stiff penalties have not stopped crypto advertisements in the country, according to the Financial Times.

A combination of favorable macroeconomic conditions and surging institutional interest in the digital asset has served Bitcoin well throughout the year, and several analysts recently told Decrypt they expect the appetite for BTC to continue to grow, despite signs of potential exhaustion in the crypto market earlier this week.

Tempo is still in the works and will be a stablecoin and payments-focused L1 with Stripe essentially being in control of the network. Its ethos marks a stark contrast to Ethereum's decentralized and open-source nature, given that it will be a corporate-controlled chain.
