These include conspicuously posted warnings about speculative risk, which direct the user to informational pages and other prompts designed to alert the user and mandated know-your-customer requirements.

Ongoing debasement of the currency means that all asset prices will continue to rise as investors rush to protect their purchasing power, Kobeissi Letter added.

Unlike a company's stock market cap, which is based on outstanding shares, the market cap of gold is a calculation of the total value of all the gold that has ever been mined; however, it is impossible to know the exact amount.

Early investors of the WLFI token, including Sun, managed to buy in at just \$0.015 per token, or a \$1.5 billion valuation, and are still very much in the green by more than 10X. But those retail traders who bought WLFI as soon as it became tradeable at a price above \$0.33? They're now down 45%.
