Ethereum developer Federico Carrone says the growing influence of corporations such as Paradigm on the network could be “tail risk” for the Ethereum ecosystem.

"We have hashing technologies, where we have the ability technologically to detect CSAM proactively," the spokesperson said. "That's something that's sort of an industry-wide standard, and we're able to block it from appearing in search."

A bear trap occurs when the price breaks below a widely watched support level, draws traders into shorts, then reverses sharply higher, forcing covers and

Lately, however, that decision has moved from tactical to strategic. Beyond developers deciding between ecosystems, big companies are now building their blockchains from scratch. And when the companies doing it are Stripe, Coinbase or other giants with deep regulatory and distribution advantages, the L1 stops being a neutral playing field and starts looking like a moat.

How to read: A rising wedge in an uptrend often signals a potential reversal as momentum weakens, while a falling wedge in a downtrend points to a possible bullish reversal. These patterns can also act as continuation signals when aligned with the prevailing trend. Measure the wedge's height and project it from the breakout point to estimate the target move.
