Comprehensive Guide to can i use binance without verification

Catalyst windows can also distort price action. Listings and token unlocks may temporarily overwhelm shallow market depth, especially in illiquid altcoins. This can produce sharp “breaks” that often reverse once order flow normalizes. Research on market microstructure around launches and unlocks shows how depth, fragmentation and positioning can combine to create these head fakes.

Jonathan Morgan, the lead crypto analyst at trading app Stocktwits, added that this is likely the result of “mechanical selling” from traders who simply buy and sell based on the expectation of a four-year cycle.
