Last week, federal prosecutors announced criminal wire fraud and money laundering charges against Chen, who is currently at large.

Although Bitcoin remained largely rangebound during the third quarter, Ether (ETH) surged to multi-year highs and several other digital assets showed renewed momentum.

Uniswap added support for the Solana network to its web app, allowing Solana users to link their wallet and trade Solana-based tokens alongside those from other networks.

Analysts remain wary of digital assets' future price path as markets reckon with a re-escalation of the Trump administration's global trade war, inflation and economic worries, and other macroeconomic uncertainties. "It's likely too early to tell if this is the bottom though as wider markets are choppy, particularly gold," James Butterfill, global head of research at crypto asset manager CoinShares told Decrypt.
