This article discusses what crypto staking is, what has prevented greater institutional participation and how Grayscale has encouraged the institutionalization of crypto investment. It also highlights regulatory and market changes surrounding staking and explains how Grayscale's spot crypto ETPs deliver staking yields to investors. Finally, it outlines the risks associated with staking funds and shows how Grayscale's ETPs have shifted crypto from a price-tracking asset to an income-generating one.

"The tax rules surrounding crypto are quite complex and there's now a volume of people who are trading in crypto and not understanding that even if they move from one coin to another it triggers capital gains tax," Neela Chauhan, a partner at UHY Hacker Young, which submitted the FOI request, told the FT.

"So as we move dollars onto the blockchain, which is stablecoins, we'll move stocks and real estate," he said.

Waller said updates on the potential implementation of his "skinny" master account plan will be coming soon, with the Fed conducting outreach to interested stakeholders.
