The crypto exchange sent a letter to the Treasury on Friday, responding to the agency's request for comment on innovative methods to detect illicit activity involving digital assets.

While the \$20 million plan was designed as a short-term measure, the latest proposal seeks to make buybacks perpetual, embedding them directly into the DAO's governance and treasury management. The move would shift Aave from opportunistic market reactions toward a systematic, rule-based capital strategy, echoing corporate-style financial management.
